

MODERN **MOULDING**

Become A Distributor

Modern Moulding is committed to providing our customers with the most efficient cantilever coping in the industry. Through continuous testing and research we endeavour to manufacture the highest level of quality for our customers.

Satisfying our customers needs and encouraging their success is ultimately essential for our success. Modern Moulding is committed to training and supplying the necessities required to our distributors to form a strong partnership in selling our cantilever coping.

If this is something that your company would be interested in please call or email:
